

Natural Disasters—

I survived the Japanese Tsunami

This term we are going to look at natural disasters around the world. We will explore the causes and effects and how people deal with the aftermath.

In English we will be looking at the story of Ben, who survived the Japanese Tsunami. We will also be writing reports and explanations about the different kinds of natural disasters as well as instructions and science reports. In Geography and history we will be looking at Japan and comparing it to the UK by linking it to our maths work on climate graphs. In RE we will again compare the religious traditions of the People of Japan to those of Christians. We will also be looking at the causes of flooding closer to home. In science we will be looking at forces and how we use these in parachutes and in boats. Our art will cover everything from traditional Japanese art techniques to Manga. In ICT we will be looking at staying safe online and our music we will be singing karaoke—Japanese for empty orchestra.
